V Korea

present situation not satisfactory
since for cry from us of XVI GA

India failed to implement res. on withdrawal of troops.
93000 prisoners detained by India

Bangladesh : putting cart before the horse → recognition
before negotiation is blackmail

before UN resolutions are fully implemented and before
problems with Pakistan are settled Bangladesh
not qualified to enter the UN.

We will absolutely not agree to India which does not
withdraw troops from East + West Pakistan and
which doesn't abide by Res of GA

to application we will absolutely not agree to !

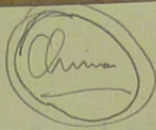

Hope that SG will exert influence in & make India
withdraw forces, release prisoners + promote talks
between Bhutto + Mujib. Otherwise SC will not
examine application. (Sincerity of the UN)

China : actively promote peaceful solution of problem
between to Pakistan

We will not lightly make use of our veto. But if
passed to a vote we will veto

No hard feelings about Mujib. want to promote talks
between Mujib - India and Bhutto, promote reconciliation
we never do things just to popular people.

Dacca a number of Indian troops simply changed
uniform.

⑦ General with situation

situation of great upheavals beneficial to peoples of the world
historical trend

State of upheaval is a fine thing situation is excellent

policy of hegemony by the two superpowers have not relaxed
"bullying" by ———. They are contending and
colluding — now colluding to divide this (zones of)
influence. Main reason for insecurity.

The times when they could act as they want has passed.

Ch not for false peace. Oppose power politics

what is our conception of peace: depends on how you look at peace

Vietnam: principle is involved. It must withdraw

side of aggressor as Vietnam is ~~not~~ important

We are not as ambiguous on these matters

India Pakistan conflict: UN resolutions just must be upheld
if not implemented what role will UN play in future

stand firmly on side of justice and truth and keep promises

As we see it situation is excellent + should be further promoted

how can we unite even more closely with small and
medium sized countries and developing countries in their
struggle against power politics — that's why they are there

this UN reflects situation in the world

1950 one of superpowers control UN

1960 two of superpowers control UN

now: Superpowers no more ⁱⁿ control

(2)

superpowers will not giving position : struggle increase

Tech : VN is at crossroads

question VN go down all path or will solve problems

we must make earnest efforts

see to it that spirit of Charter is carried out.

Vietnam

it is a matter of certainty that US imperialism will be defeated
wanton and savage bombing : also include unabled centers
and dishes

SA expressed regret at bombing : he appreciate his just stand

yesterday SA expressed hope that VN look into Vietnam :

the Vietnamese side has consistently opposed this ; also

the reopening of Geneva conference.

These matters can only be decided by Vietnamese
themselves.

resumming of Conference cannot solve any problem

US born to threads the convention a long time ago
since 1968 : talks in Paris. US persisting in its aggression

that is why problem can't be solved. DRV + PRG should
be supported

All attempts (VN, conference) would only complicate questions

approve + support Paris negotiation → against all
other things ; but this is matters to be decided by
Vietnamese. As long as aggression is concerned

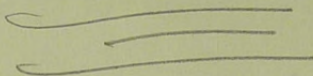

we support them in their struggle other matters
their affair. We must not meddle.

In the 1990s

Korea

US must make record

Middle East

condemnation of superpowers. always disappointed Palestinians
resolution about 242 since it didn't condemn
aggression by Israeli provisions to restore Palestinian rights
and even this week resolution has not been implemented.
the 2 superpowers condoning for petroleum resources + strat.
position adopt a no war no peace attitude. This is
explanation. So long as this doesn't change nothing
found stand a chance. That's why we also have resolution
about Janing

no developments before + after US elections expected
result: G.B. + F. step in? will not be that simple.

Palestinians subject to disasters

We will support trade to the end. situation not unclear

KW, perhaps possible to organize conference under UN
auspices, between parties? Initiative after new year

Chris: hope progress within your term of office
at any rate solution in 100 years

Cyprus

parties concerned equal (staying peacefully)
Turks + Greeks should solve it in spirit of friendship
and understanding (rather detached - Cyprus)

Namibia

presence of SA = aggression
according to Chinese direction against SA
SA not given up this racist + colonialist policy
