Special no. 1967-1968

HIGHEST PRIORITY

At 16 hours 00 minutes, the U.S. telegraph agency reported that police in Dallas, Texas, had arrested U.S. national Lee H. Oswald, 24 years old, chairman of the local branch of the Fair Play for Cuba Committee, on suspicion that he had assassinated Kennedy.

It is also reported that Oswald was in the USSR some time ago and is married to a Russian woman.

It was ascertained by checking at the consular section of the embassy that Oswald really did spend several years in Minsk, where he married Soviet citizen Marina Nikolayevna Prusakova (b. 1941). In June 1962, they returned to the U.S. In March 1963, Prusakova applied to return with her daughter to the USSR for permanent residency.

The KU [?] of the MFA [Ministry of Foreign Affairs] of the USSR (letter no. KU-USA-540058-24518 of October 7, 1963) reported that her application was rejected.

The consular section of the embassy has the correspondence between Prusakova and Oswald regarding her return to the USSR. The last letter from Lee Oswald was dated November 9 (the text was transmitted on the line [sic] of nearby neighbors).

It is possible that the U.S. authorities may ask us to familiarize them with the correspondence in our possession.

The U.S. authorities are aware of the existence of this final correspondence, since it was conducted through official mail.

Inasmuch as there is nothing that compromises us in this correspondence, we might agree to do this as a last resort (after removing our internal correspondence with the MFA).

Please give instructions on this matter.

Radio and television, which have interrupted all other programming and are broadcasting only reports relating to the murder of the President, are alluding more and more often to the fact that the assassin was evidently connected with "extreme leftist elements."
