

Algiers Jul. 11 th 1957.

REC'D JUL 15 1957

Read this paper, John, and try to understand why we have nothing to do with your ideas about Algeria.

It appears from what you said that your knowledge in the matter is strictly limited, poor young fellow, by what you heard from the arabian and tunisian foxes, who, on the sly, as everyone, except yourself, knows, work for communism and soviet imperialism.

Sorry to tell you that you have certainly better to do in using your hits for your desegregation problems i.e. the recent troubles in Praterville Al - Detroit, and Centerville N.C. or for U.S. imperialism in Guatemala.

Algeria is a part of France just as Texas, Massachusetts and Alaska are parts of U.S.

And we have no segregation over here.

And seriously keep in mind that every man or woman of our country will fight to death if necessary to remain French subjects and free in this French territory, and even against you Senator, and your bloody-handed arabs and communist friends.

In any case the situation is now quickly improving in Algeria.

Most of moslems want to remain french and we shall find out our way without the "help" of anybody for a problem which is strictly concerning France's affairs and only France's.

And don't believe that heaps of dollars can buy, altogether with our lives, Sahara's oil which is for Europe and not for you, neither for the men of Rabat and this god-damned bum and crook Bourguiba by name.

*Jacques F. Junot*

*who served with your navy in World War II .....  
and perhaps lost his time with his friendship for U.S.*
